## ...its about your love

---

The To Be Wed product line at Diliberto Photo & Design is a photographic experience designed to capture and express the love and relationship between two people. Our goal is to help you any way we can leading up to your day as well as the day of your wedding. We capture the big moments and the hidden moments of the day by photographing your wedding in a photojournalistic style.

Products in this line are created to be treasures and family heirlooms, timeless pieces that will hold your memories for years to come. They should be items you cherish and share.

The Photo Wedding Guest Book

## get to know...

---

The bulk of Diliberto Photo & Design consists of myself, Christina (though I go by Chris) and my amazing husband Bill as well as several fantastic cheerleaders who keep us going day to day.

I started working in photography years ago using a traditional black and white film camera which I still love to this day. Bill and I met in college, I made the switch to digital and then we got married and became a family. Six months after our marriage our family of two became a family of three with our black labrador Samantha (Sam for short).

Family is a number one priority in our lives. We love that we have the opportunity to share in the lives of our clients by capturing epic moments in their lives and translating those moments into beautifully designed artwork that they will love and treasure for lifetimes to come. This is why we're in the business of photography, design, and love.

To book your wedding please call us at 918.899.2077 or e-mail us at [info@dilibertophotoanddesign.com](mailto:info@dilibertophotoanddesign.com) we'd love to hear from you!
